

Reclaim Hosting

Instructional Technology Professional Development

May 1, 2022 - April 30, 2023

Summary & Mission

Starting in 2022, Reclaim Hosting is excited to introduce an Instructional Technology team and professional development offering that is both an extension of the work we've done over the last 9 years and a step towards work we want to build upon.

Instructional Technology at Reclaim Hosting provides regular opportunities to work within a community of curious educational technologists to explore how to make best use of a variety of technologies. Reclaim Hosting has always set out to equip the edtech community with the infrastructure, resources, and support they need to learn, grow and succeed in the classroom and beyond. With this intentional community network, we are thrilled to now have the capacity to do this work on a larger scale.

The Professional Development subscription will be made available to all, regardless of hosting projects with Reclaim Hosting. Within this first year, the Professional Development subscription will be tailored to folks running Domain of One's Own, WordPress Multisite, or Reclaim Cloud projects, and will include consistent Workshops, rotating Flex Courses, and a myriad of ways to engage with other like-minded institutions.

Services

1. **Virtual/Hybrid Workshops** (1 - 2 days)
 - "Beginner" Workshops every Fall semester for DoOO & WPMS
 - "Advanced" Workshops every Spring semester for DoOO & WPMS

2. **Flex Courses** (1 hour - 1 month long)
 - Flex Courses will include both asynchronous videos and live events, and topics will vary depending on schools participating, community feedback, and tech trends.
 - Example Topics: Reclaim Cloud Containers/Docker, Site Archiving, Accessibility, Course Syndication, Digital Presence Best Practices, Application Deep-dives

3. **Community Network** (Domain Pen Pals)
 - Complete an introductory assessment with Reclaim Hosting, after which you will be partnered with institutions of a similar focus/goal
 - Full access to the Reclaim Hosting Instructional Technology Discord server for in-the-moment communication and long-term engagement

Additional Benefits

- Expert Professional Development training with leading specialists in Educational Technology, as well as Reclaim Hosting staff
- Recorded events and documentation to be made available in a “ReclaimTV” resource hub
- Calendar of events announced up to a year in advance for easy planning

Event Calendar

Additional Workshops, Flex Courses, and other smaller, asynchronous events will be added to the [event calendar](#) throughout the year as the Professional Development community grows.

Pricing Model

The Professional Development Subscription is priced annually on a per seat basis which will give entry to **unlimited events** over the calendar year with full access to Community Discord server & Domains PenPals.

- 1 seat = ~~\$1500~~ \$1000 / year
- 2 seats = ~~\$3000~~ \$2000 / year
- 3 seats = ~~\$4500~~ \$3000 / year
- 4+ seats = Group discount provided, [reach out to us!](#)

*Single event registrations will be available for all Workshops and Flex Courses, outside of the professional development subscription, and will be priced on a per seat, per event basis. Single event registrations will begin at \$650/seat.

Billing & Discounts

Given this is the first year Reclaim Hosting is offering Professional Development opportunities for Instructional Technologists, the subscription rate for each seat is discounted by \$500. Pricing will be reevaluated each calendar year as the number of workshops, flex courses, and other events increase.

If your institution or organization already works with Reclaim Hosting in some capacity and you are interested in joining this program mid-contract we can easily prorate your subscription to align with your annual renewal.

Professional Development subscriptions will be added to your annual invoice renewal, whereas single event registrations would be purchased throughout the year at the time of the event.
